How Does It Work?

Leadership bonus is calculated by your first 5 direct referrals in both the left and right sides total IB income

For example

level	Commissions
1 level	5%
2 level	4%
3 level	3%
4 level	2%
5 level	1%

The first two direct referrals on the left and right side are 1st level, let say you are A. B and C are your direct referrals on the left and right side respectively. If B earns an IB income of \$1000 and C earns an IB income of \$2000, A will be rewarded with 5% for both B and C's IB income.

So, A will earn 5% i.e \$50 for B's \$1000 IB income and \$100 for C's \$2000 IB income in the first level as leadership income. The same will be applied for the next 4 levels as per the percentages.

Conditions

- ✓ only first 5 left & first 5 direct referrals from the right side will be considered for leadership income
- ✓ Leadership income will be added 50% to IB wallet and 50% to Trade wallet.
- ✓ Indirect referrals will not be considered for calculating leadership income.
